

AquaCruise - 14'0"

Inflatable Stand up Paddleboard (iSUP)

The AquaCruise ensures a comfortable, stable and enjoyable experience for everyone onboard, being constructed from commercial grade PVC, with a soft foam non-slip EVA decking. This board also has an exceptional double-layer construction, guaranteeing the paddle board is built to last and is of far superior quality than the cheaper, single layer alternatives on the market. The large surface area and three fins design helps deliver an enhanced performance on calm or choppy water, which is especially important when multiple people are mounting and using the board at once.

FEATURES

- Length: 426cm (14'0)
- Max loading: up to 716kg (1578lbs)
- Inflated dims L*W*H:
426*120*20cm (167.7*47.2*7.9")
