

COMBINATION LOCK

User Instructions:

The lock is set at the manufacturer to open at **000**.

You can keep it as your own combination, or set a new one as follows:

1. Push the code-changing bar shown as **(1)**.
2. Turn the code wheel shown as **(2)** to set the number you prefer.
3. Reposition the code-changer bar shown as **(1)**.

You have now completed the setting of the combination number.
