

Coated Lead Weight

Individually plastic coated, for corrosion protection and available in 5 separate colours, including 'high vis' scuba yellow, for underwater identification and where needed, superior under water visibility.

The weight block corners are smooth and rounded for additional comfort, and feature twin 'weight belt' webbing slots, for use with standard scuba diving webbing.

Available in 1kg, 2kg, 3kg and 4kg weights, to suit individual weighting needs and the majority of weightbelt, BCD and buoyancy equipment applications.

NSN (3kg) - 4220 99 213 3428

NSN (2kg) - 4220 99 096 1816

NSN (1kg) - 4220 99 251 7482
