

SUP

Adjustable Telescopic Paddle

Very easy to use! Northern Divers lightweight fibreglass SUP paddle with a strong, stiff shaft and a powerful and durable ABS blade is perfect for your paddleboard adventures.

Our telescopic fibreglass paddle is a perfect size, whatever your height! It can be adjusted from 1.6m (5'2) to 2.1m (6'9). Even better, at just 920g (2.02lbs), it floats! The blade is made from shockproof ABS plastic. The paddle is designed to provide the optimum rigidity and weight, ensuring the best experience through the water during your iSUP activities.

FEATURES

- Perfect for most paddlers
- Adjustable shaft length
- Suitable for all heights of paddlers
- Clear markings on the shaft to show paddle height for quick adjustment
- Strong and reliable clamp and push button system
- Ergonomic and comfortable T-bar grip handle
- Handle provides excellent control of the paddle and your board
- Allows for powerful strokes and quick turns
- 3 piece systems allows for easy pack down and storage of the paddle
